RESULTS FRAMEWORK OF THE UN-HABITAT STRATEGIC PLAN (2014–2019)

UN@HABITAT
FOR A BETTER URBAN FUTURE

UN HABITAT RESULTS FRAMEWORK 2014 – 2019   OVERVIEW

Goal	Environmentally, economically, and socially sustainable, gender sensitive and inclusive urban development policies implemented by national, regional and local authorities have improved the standard of living of the urban poor and enhanced their participation in the social economic life of the city.

Indicators

- ➢ Percentage of people living in slums, disaggregated by gender

- ➢ Percentage of urban population with access to adequate housing

- ➢ Percent age of people residing in urban areas with access to safe drinking water, adequate sanitation, and regular waste collection services, clean domestic energy and public transport, disaggregated by gender

- ➢ Number of city, regional and national authorities that have implemented urban policies supportive of local economic development and creation of decent jobs and livelihoods

- ➢ Number of city and regional authorities that have implemented sustainable urban plans and designs that are inclusive and respond to urban population growth adequately

	FA 1	FA 2	FA 3	FA 4	FA 5	FA 6	FA 7
Strategic Result/ Focus Area	City, regional and national authorities have adopted enabling legislation and established systems for improved access to land, effective decentralised governance and urban safety that foster sustainable urban development.	City, regional and national authorities have adopted improved policies, plans and designs for more compact, socially inclusive, better integrated and connected cities that foster sustainable urban development and are resilient to climate change.	City, regional and national authorities have adopted or implemented improved urban policies and strategies that are supportive of economic development, with particular focus on young men and women, and enhanced urban and municipal finance.	City, regional and national authorities have implemented policies for increasing equitable access to urban basic services and improving the standard of living of the urban poor.	Local, national and regional authorities have implemented policies for sustainable and inclusive housing, slum upgrading and prevention	Cities have increased their resilience to the impacts of natural and human-made crises and undertaken rehabilitation in ways that advance sustainable urban development	Key actors at local, national and global levels acquire increased knowledge on sustainable urbanisation issues and enhanced capacity for monitoring urban conditions as well as for formulation and implementation of evidence-based policies and programmes

UN-Habitat Results Framework for Strategic Plan 2014-2019

Expected Accom-plishment	Increased capacity of local and national governments and other UN Habitat Agenda Partners to implement enabling legislation for improving urban extension, densification, urban planning and local government finance Increased capacity of local and national governments and other UN Habitat Agenda Partners to implement programmes that improve security of tenure of vulnerable groups including women, youth, indigenous people and minorities Local and national governments and other Habitat Agenda Partners improved policies, plans and strategies that contribute to strengthen effective decentralised governance, inclusive urban management and safety	Improved national urban policies and spatial frameworks for systems of compact, socially inclusive, integrated and connected cities adopted by partner metropolitan, regional and national authorities Improved policies, plans and designs for compact, socially inclusive, integrated and connected cities and neighbourhoods adopted by partner cities Improved policies, plans and strategies that contribute to the mitigation of and adaptation to climate change adopted by partner city, regional and national authorities	Improved capacity of partner cities to adopt strategies that are supportive of inclusive economic growth Improved capacity of partner cities to adopt and implement urban policies and programs supportive of increased employment opportunities and enhanced livelihoods for urban young men and women Improved capacity of partner cities to adopt policies, plans and strategies for improved urban and municipal finance	Improved policies and guidelines on equitable access to sustainable urban basic services implemented by partner local regional and national authorities Increased flow of investment into equitable urban basic services catalysed by UN-Habitat programmes in partner countries with a focus on urban poor Increase in the use of sustainable urban basic services in partner cities	Global Framework for Development Effectiveness in Inclusive Housing, Slum Upgrading and Prevention developed Sustainable inclusive Housing, Slum Upgrading and Prevention are mainstreamed in National Policies, Strategies and Development Plans Sustainable inclusive Housing, Slum Upgrading and Prevention is mainstreamed in Local Development Plans	Improved risk reduction policies, strategies and programmes adopted for greater resilience of cities and other human settlements Improved settlements recovery and reconstruction interventions for longer term sustainability in cities and other human settlements Shelter rehabilitation programmes in crises responses have contributed to sustainable and resilient cities and other human settlements	Improved monitoring of urban conditions and trends Improved knowledge on sustainable urbanisation issues at local, national and global levels Improved capacities of national and local authorities and partners to formulate and implement informed policies and programmes

UN-Habitat Results Framework for Strategic Plan 2014-2019

Focus Area 1: URBAN LEGISLATION, LAND AND GOVERNANCE

Strategic Result	City, regional and national authorities have adopted enabling legislation and established systems for improved access to land, effective decentralised governance and urban safety that foster sustainable urban development.		
Indicator	Number of partner cities, regional and national authorities that have adopted legislation for improved urban governance		
	Number of partner cities, regions and countries that have improved tenure security		
	Number of partner cities, regional and national authorities implementing Guidelines on Decentralisation and the Strengthening of Local Authorities, the Guidelines on Access to Basic Services and All the Guidelines for Prevention of Crime.		
Expected Accomplishment	Increased capacity of local and national governments and other Habitat Agenda Partners to implement enabling legislation for improving urban extension, densification, urban planning and urban finance.	Increased capacity of local, national governments and other Habitat Agenda Partners to implement programmes that improve security of tenure for vulnerable groups, including women, youth indigenous people and minorities.	Local and national governments and other Habitat Agenda Partners improved policies, plans and strategies that strengthen decentralised governance, inclusive urban management and safety
Indicators	Number of consultative legal reform processes to improve urban extension, densification, urban planning and finance with the technical support of UN-Habitat	Number of programmes to improve security of tenure for the vulnerable groups, including women, youth, indigenous people and minorities implemented by partner local and national governments and other Habitat Agenda partners	Number of partner cities, regional and national authorities that have adapted the guidelines on decentralisation and access to basic services for all

Number of partner city, regional and national authorities that have adopted local crime prevention strategies |

UN-Habitat Results Framework for Strategic Plan 2014-2019

Sub Expected Accomplishment	Local and national governments initiated consultative legal reform processes to improve urban extension, densification, planning and finance	Local and national governments and other Habitat Agenda Partners have improved tools and approaches for increased security of tenure for vulnerable groups	Local and national governments and other Habitat Agenda Partners have improved policy dialogue on inclusive and participatory urban governance, and increased urban safety
	Legislative reports adopted by participants of consultative processes	Local and national governments and other Habitat Agenda Partners have improved knowledge and awareness on land related policy, institutional and technical frameworks, tools and approaches to increase security of tenure for vulnerable groups	Local and national governments and other Habitat Agenda Partners have Strengthened capacity to develop policies and strategies for inclusive and participatory urban governance, and increased urban safety
Indicator	Number of local and national governments and Habitat Agenda partners identify and prioritise their objectives for urban legal reform	Number of local and national governments and other Habitat Agenda Partners requesting or adopting tools and approaches	Number partners cities, local and national governments organising inclusive and participatory policy dialogue meetings on urban governance and safety
	Number of legislative reports finalised by participants of consultative processes	Number of partners incorporating the tools and approaches in their plans and strategies	Number of partners using tools and approaches in urban policy making

UN-Habitat Results Framework for Strategic Plan 2014-2019

Focus Area 2: Urban Planning and Design

Strategic Result	City, regional and national authorities have adopted improved policies, plans and designs for more compact, socially inclusive, better integrated and connected cities that foster sustainable urban development and are resilient to climate change.		
Indicator	Number of partner city, regional and national authorities that have implemented urban policies, plans and designs that apply principles and standards derived from best practices.		
Expected Accomplishment	Improved national urban policies and spatial frameworks for compact, integrated and connected cities adopted by partner metropolitan, regional and national authorities	Improved policies, plans and designs for compact, integrated and connected cities and neighbourhoods adopted by partner cities	Improved policies, plans and strategies that contribute to the mitigation of and adaptation to climate change adopted by partner city, regional and national authorities
Indicator	Number of partner metropolitan , regional and national authorities that have adopted national urban policies or spatial frameworks that support compact, integrated and connected cities	Number of partner cities, that have adopted policies, plans and designs for compact, integrated and connected cities and neighbourhoods	Number of partner city, regional and national authorities that have adopted policies, plans and strategies that contribute to climate change mitigation and adaptation
Sub Expected Accomplishment	Improved policy dialogue on urban policies within a spatial framework in global fora, as well as by national, regional and metropolitan authorities Strengthened capacities of institutions linked to national, regional and metropolitan authorities to develop urban policies and plans for compact, socially inclusive, integrated and connected system of cities	Improved policy dialogue at local, national and global level on innovations in urban planning and design by city authorities Strengthened capacities of city institutions to develop plans and designs for compact, socially inclusive, integrated and connected cities and neighbourhoods	Improved policy dialogue on the urban dimension of climate change in global fora, as well as by national, regional and local authorities Strengthened capacity of partner city, regional and national authorities to develop policies and strategies that contribute to the mitigation of and adaptation to climate change

UN-Habitat Results Framework for Strategic Plan 2014-2019

Indicators	Number of formal policy dialogue meetings, held with engagement of key players, organised by counterparts	Number of formal policy dialogue meetings held with engagement of key players, organised by counterparts	Number of formal policy dialogue meetings held with engagement of key players, organised by counterparts
	Number of national, regional and metropolitan institutions producing quality contributions into urban planning and policy reform process	Number of city institutions producing quality contributions into the planning and design process	Number of national, regional and city institutions producing quality contributions into climate change adaptation and mitigation strategies

UN-Habitat Results Framework for Strategic Plan 2014-2019

Focus Area 3: URBAN ECONOMY

Strategic Result	City, regional and national authorities have adopted or implemented improved urban policies and strategies that are supportive of economic development, with particular focus on young men and women, and enhanced urban and municipal finance.		
Indicator	Number of partner cities, regional and national authorities that have adopted or implemented improved urban strategies and policies supportive of the creation of decent jobs and livelihoods for youth Number of partner cities, regional and national authorities that have adopted or implemented improved urban strategies and policies supportive of enhanced urban and municipal finance		
Expected Accomplishment	Improved capacity of partner cities to adopt strategies supportive of inclusive economic growth	Improved capacity of partner cities to adopt urban policies and programs supportive of increased employment, livelihoods and opportunities and with focus on urban youth and women	Improved capacity of partner cities to adopt policies, plans and strategies for improved urban and municipal finance
Indicator	Number of partner cities that prepared local economic development plans Number of partner cities that set priorities based on local economic assessment	Number of partner cities that have adopted programs supportive of increased employment opportunities and livelihoods with focus on urban youth and women	Number of partner cities that have adopted programs and strategies for improved urban and municipal finance
Sub Expected Accomplishment	Developed strategic partnerships for local economic development Improved knowledge of partners about their local economy	Multi-sectoral partnerships that promote youth livelihood issues are formed Partners adopted evidence-based good practices	Partner cities identified strategies to improve their financial performance Increased partnerships for urban and municipal financing
Indicator	Number of partner cities that have established strategic partnerships for local economic growth Number of partner cities that have collected data and information on local economy	Number of multi-sectoral partnerships that work on youth livelihood issues Number of references made to good practices in policy and program documents and fora	Number of municipalities that develop strategies for improving operational efficiency Number of partnership agreements for urban and municipal financing

UN-Habitat Results Framework for Strategic Plan 2014-2019

trends, potential and challenges	Number of references made to good practices in research literature

Focus Area 4: Urban Basic Services

Strategic Result	City, regional and national authorities have implemented policies for increasing equitable access to urban basic services and improving the standard of living of the urban poor.		
Indicator	Number of partner city, regional and national authorities that have implemented policies for increasing equitable access to basic services including the promotion of the guidelines on decentralisation and strengthening of local authorities and on access to basic services for all.		
Expected Accomplishment	Improved policies and guidelines on equitable access to sustainable urban basic services implemented by partner local, regional and national authorities	Increased flow of investments into urban basic services catalysed by UN-Habitat programmes in partner countries with a focus on the urban poor	Increase in the use of sustainable urban basic services in partner cities
Indicator	Increased number of partner local, regional and national authorities implementing policies and the International Guidelines on Decentralization and Access to Basic Services for All	Amount of investments into urban basic services catalysed by UN-Habitat programs in partner countries	Percentage of consumers in partner cities with access to sustainable water and sanitation services Percentage of households in partner cities using sustainable energy supply Percentage of population in partner cities using sustainable modes of transport
Sub Expected Accomplishment	Improved policy dialogue and design for increasing access to basic services at local and national levels Strengthened capacities of local and national institutions to develop policies that increase access to basic services	Increased commitment into urban basic services catalysed by UN-Habitat programmes in partner countries Strengthened partnership with regional development banks and other multilateral and bilateral financing institutions.	Increased availability of sustainable water supply services Increased awareness and availability of services to promote access to basic sanitation Increased awareness and availability of options of modern sustainable energy services Increased awareness and availability of options of sustainable modes of transport

UN-Habitat Results Framework for Strategic Plan 2014-2019

| Indicator | Number of local and national authorities developing and implementing policies that increase access to basic services

Number of local and national authorities with increased capacity to develop and implement policies that increase access to basic services | Number of partner countries reporting on increased commitment of resources into urban basic services accrued from partnerships with other organizations

Number of regional development banks and other multilateral and bilateral financing institutions | Number of households in partner cities using sustainable water supply services

Number of households in partner cities adopting improved sanitation practices

Number of households in partner cities using modern energy sources

Number of people in partner cities using sustainable modes of transport. |
|---|---|---|---|

UN-Habitat Results Framework for Strategic Plan 2014-2019

Focus Area 5: Housing and slum upgrading

Strategic Result	Local, national and regional authorities have implemented policies for sustainable and inclusive housing, slum upgrading and prevention		
Indicators	Number of local, national and regional authorities that are implementing sustainable and inclusive housing, slum upgrading and prevention policies and programmes		
Expected Accomplishment	Global Housing Strategy for inclusive housing, slum upgrading and slum prevention formulated	National housing, slum upgrading and prevention strategies and programmes integrating the Global Housing Strategy vision and principles are formulated and implemented	National housing, slum upgrading and prevention strategies and programmes integrating Global Housing Strategy vision and principles are mainstreamed and implemented at city and community level
Indicators	Number of local, regional and national authorities, as well as regional and international forums, organizations and partners, that have joined the Global Housing Strategy Number of partner countries that are working towards the realisation of the right to adequate housing as a component of the right to an adequate standard of living, particularly the reduction of unlawful forced evictions Number of countries that are implementing sustainable building codes and regulations	Number of national housing, slum upgrading and prevention strategies and programmes aligned to the Global Housing Strategy vision and principles formulated and implemented Increased number of partner national authorities commencing the implementation of slum upgrading programmes	Number of city and community development plans formulated and implemented based on the national housing, slum upgrading and prevention strategies and programmes
Sub-Expected Accomplishment	Partnerships at global and regional levels towards the formulation of the Global Housing Strategy established and strengthened. Global Housing Strategy formulated and adopted by Member States.	Partnerships at national level for formulating national housing and slum upgrading strategies and programmes in aligned with the GHS strengthened. National housing and slum upgrading strategies and programmes formulated and implemented.	Partnerships at city and community level for implementing housing and slum upgrading initiatives strengthened. National housing and slum upgrading strategies and programmes at city and community levels mainstreamed.

UN-Habitat Results Framework for Strategic Plan 2014-2019

Indicator	Number of international events and policy dialogue meetings held with engagement of key players, leading to partnerships to promote the GHS vision and principles.	Number of National Habitat Committees established that support the formulation of national housing and slum upgrading strategies and programmes aligned with GHS	Number of communities participating in strategy development and decision making processes aligned with GHS.
	Number of substantive documents elaborated to support the formulation and adoption of the Global Housing Strategy	Number of national housing and slum upgrading strategies and programmes formulated and implemented	Number of national housing and slum upgrading strategies and programmes mainstreamed at city and community levels.

UN-Habitat Results Framework for Strategic Plan 2014-2019

Focus Area 6: Risk reduction and rehabilitation

Strategic Result	Cities have increased their resilience to the impacts of natural and human-made crises and undertaken rehabilitation in ways that advance sustainable urban development		
Indicator	Number of partner cities, regional and national authorities that have implemented and integrated risk reduction strategies and programming within their urban planning and management systems, with particular emphasis on the most vulnerable population		
Expected Accomplishment	Improved urban risk reduction policies, strategies and programmes adopted for greater resilience of cities and other human settlements	Improved settlements recovery and reconstruction interventions for long-term sustainability in cities and other human settlements	Shelter rehabilitation programmes in crises responses have contributed to sustainable and resilient cities and other human settlements
Indicator	Number of local, regional and national governments and partners that have included urban risk reduction and management in their plans	Percentage of partner cities and other human settlements, that have implemented sustainable urban reconstruction programmes including risk reduction Percentage of UN-Habitat emergency interventions integrating long-term development and risk reduction	Percentage of shelter rehabilitation programmes of partners contributing to disaster-resilient permanent housing Percentage of shelter rehabilitation programmes of UN-Habitat contributing to disaster-resilient permanent housing
Sub Expected Accomplishment			
Indicators			

UN-Habitat Results Framework for Strategic Plan 2014-2019

Focus Area 7: Research and Capacity Development

Strategic Result	Key actors at local, national and global levels acquire increased knowledge on sustainable urbanisation issues and enhanced capacity for monitoring urban conditions as well as for formulation and implementation of evidence-based policies and programmes		
Indicator	Number of partner city, regional and national authorities and other partners that have the capacity to formulate and implement evidence based urban policies and programmes		
Expected Accomplishment	Improved monitoring of urban conditions and trends	Improved knowledge on sustainable urbanisation issues at local, national and global levels	Improved capacities of national and local authorities and partners to formulate and implement informed policies and programmes
Indicator	Number of urban observatories using UN-Habitat monitoring tools, methods and data Number of partner national statistical offices producing urban data and indicators	Number of local and national governments that have used UN-Habitat flagship publications and best practices database for policy formulation Number of partner countries producing national cities reports to enhance local and national policy planning	Number of partner local and national authorities that have improved capacity to formulate informed policies and programmes. Increase in the number of policies and programmes utilizing evidence-based information
Sub Expected Accomplishment	Increased capacity for implementation of urban monitoring systems	Increased dissemination and awareness of knowledge on sustainable urbanisation issues	Improved capacity of institutions that strengthen the capacity of national and local authorities and partners
Indicator	Number of partners (individual or institutional) supporting and using the observatories	Number of flagship publication downloads from the UN Habitat website disaggregated into profile and purpose of users and use Number of media articles and citations on global regional and national reports Number of hits on the best practices database	Number of institutions that are using UN-Habitat's training and capacity development tools and guidelines to strengthen capacities of national and local authorities and partners
